SUMMARY

Detail-oriented graduate with strong analytical and problem-solving skills, experienced in data handling, reporting, and process optimization. Proficient in Excel, SQL, and Python for data analysis. Quick learner with strong communication skills, eager to contribute to business operations and deliver accurate, efficient results in a dynamic environment.

SKILLS

- **Core Skills:** Data Analysis & Reporting, MS Excel (Pivot Tables, Data Cleaning), SQL (Basic Queries), Data Validation & Processing, Communication & Problem-Solving.
 - **Technical Tools:** Python (Pandas, NumPy), MySQL, Jupyter Notebook, Java, Spring Boot, Spring MVC, Laravel, HTML, CSS, Thymeleaf, Bootstrap, JavaScript
 - **Tools & Platforms:** VS Code, IntelliJ IDEA, GitHub, Postman, Jupyter Notebook, Docker
 - **Data Handling:** Data Cleaning, Data Preprocessing, EDA, Statistical Analysis
 - **Visualization & Reporting Tools:** Excel, CSV
 - **Data Extraction:** BeautifulSoup, Requests (Web Scraping), APIs
 - **AI-assisted tools:** ChatGPT, perplexity, Cursor AI
 - **Testing & API Docs:** JUnit, Mockito, Swagger
-

EXPERIENCE

INTERNSHIP (KEVELL CORP | JUN-JUL 2023)

- Completed a 20-day internship at Kevell Corp with hands-on training in Core Java, focusing on OOP principles, collections, and exception handling.
- Gained practical experience in writing, testing, and debugging Java programs.

JAVA FSD COURSE (GUVI | JAN-MAR 2025)

- Completed a Java Full Stack Development course at GUVI (Jan-Mar), covering Java, Spring Boot, MySQL, HTML, CSS, Thymeleaf, and JavaScript.
 - Built hands-on projects using Spring Boot and REST APIs, improving skills in backend development and application deployment.
-

PROJECT

House Sales Analysis | Python, Pandas, EDA, Jupyter Notebook | GitHub: [Link](#)

- Analyzed real estate data to identify key factors influencing house prices using Python and Excel.
- Performed data cleaning, visualization, and trend analysis to generate actionable insights for decision-making.

Largest Economies Data Analysis | Python, Pandas, Numpy, Jupyter | GitHub: [Link](#)

- Processed and analyzed global economic datasets to identify GDP trends and country-wise performance.
- Created visual reports to support data-driven insights and comparative analysis.

Online Bus Booking System | Spring Boot, MySQL, Thymeleaf | GitHub: [Link](#) | [Demo](#)

- Designed and implemented a full-stack application using Spring Boot, MySQL, and Thymeleaf to enable users to search and book bus tickets.
- Built role-based authentication with Spring Security, integrated RESTful APIs, and optimized booking workflows for secure and efficient bus management by admins.

Employee Management System | Spring Boot, MySQL, Thymeleaf | GitHub: [Link](#) | [Demo](#)

- Developed a Spring Boot and Spring MVC-based web application with RESTful APIs for employee record management.
 - Implemented CRUD operations, MySQL integration, and Swagger API documentation to streamline admin tasks like adding, updating, deleting, and viewing employee details.
-

EDUCATION

Mangayarkarasi College of Engineering | 2020-2024

Bachelor of Engineering (B.E.) in Computer Science Engineering | CGPA-7.5
